Site Highlights	<ul style="list-style-type: none"> - Independence + responsibility: As the primary care provider both in FM clinic and specialty rotations, you provide good continuity of care + learn how to independently +confidently manage patients. FM Obs offers opportunity to deliver your own pts. - Strong supervisors with great 1 on 1 learning opportunities. FM is only core residency program therefore, t little competition for learning experiences. All rotations are based out of RVH enabling residents to build relationships with local specialist. -Large regional health care center with a community hospital feel. Minimal service component on call with focus on learning opportunities - tight-knit group of residents with many organized social activities 	<ul style="list-style-type: none"> - Responsible for a roster of patients which allows you to provide good continuity of care and learn how to manage patients independently - FM is the only residency program based out of the hospital which allows you to work 1 on 1 with staff who are enthusiastic to teach. Learner centered hospital with ability to build good relationships with consultants and local specialists who are keen on having learners - Lots of elective time to pursue special interests 	<ul style="list-style-type: none"> - Exposure to comprehensive Family Medicine - Flexible program very responsive to your educational needs with the option of building your own second year through elective time - Small program reacts quickly to feedback to make changes. - Exposure to ED with high volumes and strong exposure to develop procedural skills as staff will call you to do procedures or see interesting cases 	<ul style="list-style-type: none"> - Flexibility in second year with ability to "build your own curriculum" by choosing timing and location of many electives - plentiful and diverse ER experiences - abundant recreational and outdoor activities and great community support 	<ul style="list-style-type: none"> - Lots of independence to allow for competency and confidence - Flexible program which can be directed to learners objectives and educational needs - One to two residents in town allowing for exposure to broad range and diversity of experienced FM preceptors 	<ul style="list-style-type: none"> - Lots of independence and flexibility as you create your own schedule - Great exposure to ER - Very few other learners, so 1:1 ability to work with very friendly and keen staff & preceptors
