

9 month Locum Coverage Required at Markham Family Health Team

I am looking for a locum to cover my family medicine practice (including inbox) from April 1st, 2024 to December 31, 2024.

The roster size is less than 800 patients and will require 3 to 4 half days per week.

There is also one evening per month of urgent care coverage, from 5:30 pm to 8 pm.

There will be 2 or 3 weekends during the year that require coverage (FFS billing with 70/30 split).

The weekday stipend is \$450 per half day plus 70% of shadow billing/uninsured billing.

Our EMR is Accuro.

We have a wonderful group of physicians and interprofessional healthcare team members, including nurses, nurse practitioners, social workers, a pharmacist, OT, and chiroprapist.

There will also be opportunities to pick up additional shifts and locum coverage for our other physicians, if you are interested.

Start date is April 1, 2024 until December 31, 2024.

Please contact Dr. Parm Singh at Pasingh@oakvalleyhealth.ca if interested.
