

Family Medicine Locum at North York FHO/FHT, potential to take over

I'm looking for a locum to take care of my **1500 patients**, with the potential to **take over my practice** if it's a good fit!

I am one of 8 physicians at the **Jane and Finch FHO/FHT** and we use **OSCAR** EMR.

I am **flexible** in terms of coverage and locum length, but ideally looking for **5-6 half days**, with **1 evening after hours requirement every other Tuesday** for 3 hours starting May 24, 2024.

Compensation will be **\$500 per 3 hour half day + 100% 3rd party billing + 100% shadow billing**

We have great nursing staff who do all diabetic measurements, immunizations, TB tests etc as well as allied health care providers (dietitian, pharmacist, social workers, diabetic team) for an improved team approach to patient care.

New grads are welcome! If you have any questions, please feel free to reach out by email at drsarahramzan@gmail.com or by phone 647-980-1520.
