

## **Guideline for Resident Stipends**

*Source: Department of Family and Community Medicine*

Residents will receive \$250.00 per training year for academic support to be used for educational purposes. Educational purposes include residents' costs for courses, medical resources, exam materials, medical software, and electronic hardware devices (excluding cell phones). Unused funds will not be carried forward into the resident's second year. The maximum total funding available to any resident is \$500.00, regardless of whether their residency extends beyond two years.

Residents are also eligible for reimbursement of up to \$150.00 over the course of their residency to support any expenses incurred while completing their required residency projects.

Original receipts are required for all reimbursement submissions.

For information on the claims submission process, please contact your Site Administrator.
